Hi Julie –

We've put together this brief update for the FBC regarding EPA's proposal, the comment period and a general idea of next steps. We don't have any firm steps at this point, which is why it's fairly general.

The FR notice stated that any comments submitted prior to the public comment period opening would not be included in the docket. If the FBC is interested in submitting comments to be considered by EPA, they should do so through one of the avenues included in this update.

Let me know if you have any other questions or receive any follow up requests from FBC.

Thanks Julie,

Rob

Rob: Flathead Basin Commission meeting is scheduled for next Wednesday April 8th. I now have a conflict and cannot attend. Would you be available to call into the meeting at the 2:30 pm slot for a CFAC update? Other option would be to send a written update for distribution and inclusion in the meeting minutes.
